## SUMMARY

Experienced frontend developer with a solid background in creating dynamic websites and web applications using React, Angular, and cutting-edge JavaScript frameworks and tools. Possessing two years of hands-on experience, I am adept at crafting engaging user interfaces and implementing responsive designs.

## PROFESSIONAL EXPERIENCE

### Tata Consultancy Services, Mumbai.

June 2019 – June 2021

Frontend Developer, Reserve Bank of India CAS Team

- Developed interactive web pages using AngularJS, resulting in a 30% increase in user engagement and a 20% decrease in bounce rate.
- Implemented advanced filtering and sorting features, allowing users to quickly navigate through large datasets with ease.
- Integrated backend APIs with Angular framework to improve website loading time by 50%, resulting in improved user experience.
- Implemented efficient navigation system with the Angular Router to improve website performance.
- Implemented a component-based architecture to improve code maintainability and scalability, reducing code complexity by 40%.
- Collaborated with design team to identify potential roadblocks in UI/UX development, leading to a reduction in development time by 20%.

## SKILLS

**Frontend Development:** HTML, CSS, Bootstrap, Typescript, JavaScript, Angular, React, WordPress, Tailwind CSS

**Backend Development:** Nodejs, Express.js

**Database:** MYSQL, MongoDB

**Language:** Python, Java

## EDUCATION

### Conestoga College, Canada

GPA: 3.9/4.0

Post Graduation Diploma in Web Development

April 2023

Relevant Coursework: Fullstack Development, Database Design, Javascript Programming.

### University Of Mumbai, India

GPA: 7.25/10

Bachelor of Engineering in Electronics & Telecommunication

May 2019

## ACADEMIC PROJECTS

### Employee Management System

- Increased efficiency by 20% using GraphQL to pull from various data sources in single API.
- Developed REST APIs utilizing Node.js and Express.js to enable seamless communication between client and server components.
- Implemented React Hooks and State Design for various functionalities.

### Book Sharing Website (Decentralized library)

- Developed modular UI components using React, resulting in a 35% reduction in code complexity and a 50% increase in development speed.
- Integrated Google Books API into React app to retrieve over 1 million books for users.
- Designed UI/UX designs using Adobe XD.
- Incorporated Axios to seamlessly integrate backend services.
- Collaborated with other team members to develop and implement complex JavaScript features.
- Implemented version control using Git, and Trello for task management.
- Implemented State Design and Routing for better efficiency.
